TeamMate®

The TeamMate Conference range is a fully manoeuvrable range of contemporary design for neat storage and access of multimedia and video conferencing equipment for the business environment. Available either as dual bay, or triple bay configuration, each equipment bay consists of a standard 19" rack interior, designed for ease of equipment access and integration. The Conference range is available either with single mount or twin mount arrangement for the latest flat panel displays, including the 103" diagonal plasma display. A choice of worktop finishes enables the Conference to blend in seamlessly with existing interiors. Finished in silver and stainless steel, with smoked Perspex doors, the TeamMate Conference range provides the premium solution for many meeting room environments and is fast becoming an alternative to more common place unsightly fixed installations.
