Benefits

Increases efficiency of meetings and presentations.

Consolidates all audio visual video conferencing and IT functions.

Integrates with all video conferencing technology.

Standard user interface for complete control.

Upgradeable to future technology.

Low cost of ownership.

Easy to redeploy to other meeting areas.

No messy cables.

Aesthetically pleasing and robust design for all environments.

Save money by sharing a single system over multiple rooms.

Offering a refreshing alternative to traditional fixed audio visual systems, the fully mobile Executive is cleverly designed for use with best of breed AV, multimedia and display technologies. This stylish unit seamlessly blends in with any meeting and learning environment; creating a new generation presentation experience.

- Business presentations
- Video conferencing
- Meeting area briefings
- Training courses and role playing
- Seminar rooms and libraries
- Exhibitions, conferences and tradeshow
- Brainstorming sessions
- Full multimedia presentations
- Web enabling your meetings and presentations

TeamMate®

The TeamMate Executive design stylishly harmonises with most business or learning interiors. A glass work top comes as standard with veneer options available to help blend in with existing furnishings. Integrated peripherals are securely protected behind a lockable smoked dark grey Perspex door. The effective cable management and input patch panel eliminates the otherwise usual mess of cables, ensuring a clean and safe audio visual presentation. The unit is a fully mobile self contained facility capable of using any choice of LCD or plasma display up to 65" in size, or twin screen arrangement. Furthermore with a wide choice of exclusive rack enclosure, there is ample space for integration of best of breed multimedia and IT peripherals.
