## TeamMate VariHite Podium Takes full honours

### Features

Self-sufficient fully contained flagship lecturing podium.

Height adjustable centre pod for DDA compliance and flexible lecturing position.

Large working area with wide range of custom work tops.

Comprehensive cable management and connectivity options.

Input/output panel for all communications and AV/IT systems.

Finished in silver and stainless steel complete with rack shelves and security doors.

Advanced convection system for air flow and heat dispersal, no need for cooling fans.

Up to 28U rack space to accommodate integrated multimedia peripherals.

Blends in with traditional or modern surroundings.

Consolidates all audio visual, IT and lecture caption functions.

Provides confident teaching platform with increase in reliability of integrated technology.

Ease of redeployment to other meeting or lecturing areas.

Upgradeable to future best of breed technology at ease.

Low cost of installation with simple set up and use.

Wide range of desk top mountings and security modules for AV control and input devices

No messy cables with secure tamperproof access.

Aesthetically pleasing and robust design for any environments.

The TeamMate VariHite Podium is an imposing combination of innovative design and functionality—the perfect launch pad for big venue lecturing presentations, bringing together audio visual and IT systems in one single system configuration. Lecturers can enjoy space, good ergonomics and feel in control. The TeamMate Podium suits all architectural environments and provides a beneficial platform for lecturers and students alike.

- Imposing unit with simple touch control
- Easily matches in with existing furnishings
- Spacious high quality work surface
- DDA compliant with VariHite Wheelchair access
- Ease of access for maintenance and support
- Flexible configuration with lockdown castors

# TeamMate®

The TeamMate VariHite Podium has been designed for larger lecture theatres or auditoriums and can be used to hold a considerable amount of multimedia equipment (28U Max), all controlled via the touch screen interface of your choice. The desk structure is fully manoeuvrable with 'Footmaster' ratchet castors keeping the Podium secure once in place. The centre pod has been carefully designed to accommodate wheelchair users and provide a clever height adjustable lecture stage with built in VariHite lift and lower technology. The twin 19" 14U rack arrangement houses AV, VC or IT equipment that will create the audio visual delivery system of choice. Each unit has the option of either clear, smoked or tamperproof stainless steel lockable front doors for security and effective cable management in the rear of the unit which eliminates the usual confusion of cable and wiring. The desktop comes with a choice of Formica finish to blend with existing furnishings.

## What is included

- Based on 14U 500 mm 19" rack bays
