

TeamMate brings people, information and technology together in a truly innovative way by integrating IT, AV communications and presentation systems within a single, powerful mobile or static unit.

TeamMate®

TeamMate Tutor

Dynamic delivery platform

Features

All in one multimedia delivery system; simple to use low maintenance unit.

Pre-configured to individual specifications; quick to install and easy to transport.

Aesthetically designed to harmonise with all teaching and presentation environments.

Touch screen control for input/output and programme source selection.

Compatible with all audio visual and IT multimedia components.

Stable durable platform with many security features.

Stylish rack unit to house and protect all AV and IT peripherals.

Stardust worktop as standard. Custom finish also available.

Single rack configuration with side panels and patch panel.

Hidden tamperproof cables and self contained power management.

Secure inspection covers for support and engineering access.

Secure housing for control system and input patch panel.

Layout for visualiser with security mounting and cable management.

Ease of connectivity to large screen display systems and audio output.

Ergonomic 360 degree movement flex arm for mounting LCD or interactive panel.

Increasingly, the future of successful education and training relies on the bringing together of fast changing technology. The TeamMate Tutor is a modern looking self contained arrangement of multimedia teaching peripherals in a tamperproof and secure unit. This helps provide learning organisations with a standard delivery policy, for confident exchange of knowledge.

Designed for classrooms, training rooms and smaller lecture theatres the Tutor is a "state of the art" mobile presentation desk system, providing an easy to use yet dynamic delivery platform for teachers, lecturing staff and presenters.

- Classrooms, Lecture theatres and auditoriums
- Efficient and secure delivery platform
- Campus wide familiarity of use
- Browser based control and systems monitoring
- Secure tamperproof integration of AV hardware
- Ease of upgrade to future technologies
- Full multimedia rich teaching module
- Ease of peripheral upgrade and serviceability

TeamMate®

Ideal for lecture theatres, auditoriums, and training facilities—the TeamMate Tutor is the delivery platform of choice for many leading universities, colleges, and higher education establishments. Although fully mobile, once in place the Tutor is securely fastened down, and an efficient cable management and patch panel system takes away the confusion with cabling and connectivity. Furthermore, a secure lockable front door ensures the safety of the integrated equipment, whilst maintaining secure user access to all the multimedia peripherals. The TeamMate Tutor can be seamlessly connected to your large screen device of choice. Now the audience gets to see the 'big picture' while the instructor stays in control.
